

Condé Nast Traveller Sensational Spas Article November 2011

13 Huvafen Fushi

North Malé Atoll. At this supremely sophisticated 43-villa resort, the wow factor is the spectacular spa with two treatment rooms underwater, the world's first such innovation. It is thrilling yet soothing to be surrounded by bright blue waters dotted with moving clouds of angel fish, parrot fish and more. Therapies range from lymphatic drainage to hot-stone massages. A separate, raised relaxation area offers panoramic views across the resort's sleek infinity pool and restaurant and out to sea. www.huvafenfushi.peraquum.com.
